

## **Sterigenics Announces New X-ray Sterilization Capabilities in the Southeast United States**

**Oak Brook, IL, May 13, 2025** –Sterigenics, a Sotera Health company and a leading global provider of outsourced terminal sterilization services, announces the expansion of its Haw River, North Carolina campus to include a new X-Ray facility adjacent to its existing gamma facility. The projected opening is late 2025.

The expansion, strategically located in Haw River, North Carolina—just 30 minutes from Research Triangle Park and 90 minutes from BioPharma Crescent—will complement Sterigenics’ existing Gamma network and help meet the growing demand for sterilization services in the Southeast region of the United States. The new facility will provide additional irradiation processing capacity for manufacturers in the medical device, pharmaceutical, biopharmaceutical single-use-systems, and commercial applications.

“Our state-of-the-art X-Ray facility features innovative technology designed to maximize product safety and provide high-throughput processing while accommodating a wide range of product configurations—giving customers the flexibility and the geographic capacity they are looking for in a sterilization provider” said Mike Rutz, President, Sterigenics.

The new X-Ray facility will enhance Sterigenics’ existing global technology-agnostic sterilization platform which includes 48 sterilization locations worldwide.

**About Sterigenics:** [Sterigenics®](#), A Sotera Health company is a leading global provider of outsourced terminal sterilization and irradiation services for the medical device, pharmaceutical, food safety and advanced applications markets. With our industry recognized expertise, we help to ensure the safety of millions of patients around the world every year. Across our 48 global facilities, we offer our customers a complete range of sterilization services, primarily using the three major technologies: gamma irradiation, ethylene oxide processing and electron beam irradiation as well as nitrogen dioxide sterilization and x-ray irradiation. We are committed to addressing the growing need for sterilization across the world and partnering with our customers to eliminate threats to human health. Safeguarding Global Health® – with every product we sterilize.

**About Sotera Health:** [Sotera Health Company](#) is a leading global provider of mission-critical end-to-end sterilization solutions and lab testing and advisory services for the healthcare industry. Sotera Health goes to market through three businesses – [Sterigenics](#)®, [Nordion](#)® and [Nelson Labs](#)®. Sotera Health is committed to its mission, Safeguarding Global Health®.
